

AVM-2000 Print to File Spec Sheet

The integrated optional Print-to-File module for AVM-2000 allows you to "print" to PDF and other file types, as well as EMAIL directly out of AVM-2000 ! This new option is available in AVM-2000 versions 5.10u and above, on existing **Print** buttons in many modules.

- **Are you looking for a way to quickly email Invoices, Quotes, Statements, PO's and more ?** It's here ! Now you can use our new Print-to-File option to create PDF, RTF, Word2000.DOC, and plain TXT files from many AVM-2000 printouts. Then easily EMAIL these files from inside AVM-2000 (No additional software needed)!
- **Do you want to get organized and be more efficient ?** You can now store all of your AVM-2000 "documents" electronically in one folder – making it easy for all users to find, print and/or email these files ! Electronic "copies" (or "images") of the AVM-2000 printouts are stored in PDF or other file format onto your computer. These files will look generally like a standard AVM-2000 printout would when printed to a hard copy.

A **FREE EVALUATION** is available for the Print-to-File module for all users with version 5.10u or above. The evaluation is good for 50 unrestricted file creations, and then good for restricted PDF file evaluations after 50 creations.

Functionality Includes:

Configuration choices and default settings are completed in the Admin > Global Config > General > 2 Miscellaneous and in each workstation's Admin > Local Config > General.

Print-to-File is available using the **Print buttons** located in many AVM-2000 forms, such as: Work Orders, Invoices, P & E's, Quotes, Customer Adjs, Customer CMs, 337's, 8130's, Log Books, W & B's, Inventory Reports, Aircraft Inspection Reports, Cores Due Letters and Reports and MORE. Look for the new choice at the bottom of the Print Picker window for "Print to File".

Choose to "print" AVM-2000 documents to **PDF** (the most widely used, universal file type in the world), or **RTF, HTML, Word2000.DOC** or **plain TXT**. (NOTE: PDF produces the best quality files, but other file options remain available with varying limitations.)

Email these files using the integrated email functions in AVM-2000 (requires internet connection and configuration of your email server's SMTP address). This integrated function will not interfere with your normal email software functions. Filtered lookups into the AVM-2000 Contact information for Customers, Vendors and Aircraft make it easy to locate the email address/es you need.

Detailed information and instructions for use can be found in the AVM-2000's Help > **AVM-2000 Help** menu option. Click on the section for "Print-to-File" in the Table of Contents

Notes: The Email function of the Print to File module may not available for web-based email services such as Gmail, Yahoo, Hotmail, GoDaddy, etc. You may need to work with your internet service provider to obtain the SMTP address needed for use in AVM-2000. Try out the free evaluation before purchasing to ensure that this function works with your email and internet service.
