

AVM-2000 TBO Components Spec Sheet

The optional **TBO Components Module** for AVM-2000 will track life-limited aircraft components.

- Life-limited components may be tracked for any number of aircraft
- Components can be tracked using any combination of time, cycles or calendar date
- User will specify days, hours and/or cycles for Forecast Reporting
- Forecast Reporting may also be restricted to specific aircraft, a group of aircraft and/or specific components
